EDUCATION

Carnegie Mellon University, Pittsburgh, PA 08/2025 – 12/2026 (expected)
Master of Science in Machine Learning – Applied Study
Zhejiang University, Hangzhou, China 09/2021 – 06/2025
B.Eng. in Computer Science and Technology (with honors), GPA: 3.98/4.00, Rank: 9/113

EXPERIENCE

Sea AI Lab Singapore (remote)
Research Associate; Advisors: Dr. Min Lin and Dr. Longxu Dou 03/2025 – 08/2025

- Developed large language model agents capable of operating computers through the terminal interface; public release expected December 2025.
- Designed agent scaffolding and built scalable pipelines for training-data collection.
- Established a software-engineering (SWE) environment to support comprehensive agent evaluation.

Tsinghua University Beijing, China
Research Intern; Advisors: Prof. Jie Tang and Prof. Yuxiao Dong 01/2024 – 07/2024

- Developed VisualAgentBench, a systematic benchmark for evaluating large multimodal models (LMMs) as visual foundation agents across 5 vision-centric tasks in 3 scenarios; set up 2 embodied planning tasks and delivered the LMM agent pipeline on them.
- Collected over 1,000 agent trajectories for behavior cloning, extensively evaluated 9 proprietary LMMs as well as 9 open-sourced LMMs for benchmarking.
- Analyzed agent behaviors (high-level planning & vision-language grounding), surfacing recurrent failure modes and evaluation insights.

Zhejiang University Hangzhou, China
Research Assistant; Advisor: Prof. Yang Yang 03/2023 – 11/2023

- Benchmarked contemporary large language models (LLMs) on fundamental graph reasoning tasks (e.g., shortest path) and empirically demonstrated consistent underperformance.
- Proposed GraphLLM, a framework that integrates a graph-learning module with LLMs to enhance graph reasoning, achieving an average accuracy improvement of 54.44% across four fundamental tasks.

SELECTED AWARDS

- Outstanding Graduates of Zhejiang University 2025
- First Prize in National Olympiad in Informatics in Provinces (NOIP) 2019

SKILLS

Programming Languages: Python, C, C++, Bash
Tools and Frameworks: PyTorch, Git, Docker, L^AT_EX, SQL
